

## Village Voice Initiatives List

This List shows some of the initiatives that have come about either directly or indirectly as a result of work to develop a Parish Plan (PP). An **Initiative** may range in scope from something that is relatively quick to implement with little or no expense but requiring some available expertise and effort (the so-called 'low hanging fruit') to a much larger, longer term 'projects' requiring significant planning, effort and funding. These initiatives add to the many other activities that go on throughout the parish. See Notes on the last page.
